San Francisco

Houston

We must not let Houston become another San Francisco!

If Kathy Whitmire and her pro-homosexual city council members are not defeated this November 5th, we will see the continuing decline of the social and economic climate of Houston. Families along with businesses will continue to flee to the suburbs in order to escape increasing crime and taxes.

We must not allow Houston to become another San Francisco or another New York City.

Under Whitmire and her 8 council supporters, Houston has become the Southwest capital for homosexuality and pornography. Porno houses, nude dance studios and homosexual bathhouses (where A.I.D.S. is spread) have flourished.

Why haven't these fronts for organized crime been eradicated?

Because pro-homosexuals Whitmire and her council members have pandered to the Gay Political Caucus.

The Gay Political Caucus wants the homosexual lifestyle to receive public approval from city officials and wants homosexuality to be taught to our children in schools.

Campaign for Houston Straight Slate wants Houston to be known as the Number One Family City in America.

This will take a lot of straightening up at City Hall.

Instead of fighting with our police department and discouraging them in their task of enforcing the law, as Whitmire and her city council supporters have done, **Campaign for Houston Straight Slate** will give the police the support they need. They will pass whatever ordinances are necessary to crack down on crime in our city.

Only Campaign for Houston Straight Slate Gives You A Choice!
